January 28–29, 2003

Dallas, TX

NGVTF Technical Committee Meeting

Registration deadline is January 13, 2003

The Natural Gas Vehicle Technology Forum (NGVTF) Technical Committee Meeting will focus on exchanging information on the technical issues and developments of critical interest to NGV stakeholders. The status of U.S. Department of Energy (DOE) NGV technical programs and deployment progress will be presented, including projects undertaken as part of the former DOE/Gas Technology Institute (GTI) Infrastructure and Vehicle Working Groups. An update on NGV technology development and implementation activities will be given. Using stakeholder feedback, infrastructure and vehicle issues will be prioritized so that they can be addressed as part of a coordinated industry and government effort.

Agenda

Day 1, January 28

- | | |
|--------------|---------------------------------|
| 8:00-8:15 AM | Introduction |
| 8:15-8:30 | Agenda Review |
| 8:30-12:30 | Infrastructure |
| 12:30-1:15 | Lunch |
| 1:15-5:15 | Engines and Vehicle Integration |

Day 2, January 29

- | | |
|---------------|---------------------------------------|
| 8:00-10:00 AM | Component Development/Storage Systems |
| 10:15-12:15 | Demonstration and Deployment Projects |
| 12:15-1:00 | Lunch |
| 1:00-1:45 | Codes and Standards |
| 1:45-3:00 | New Technologies |
| 3:00-3:30 | Wrap-Up |

Outcomes

The NGVTF Project Coordination Team will synthesize the information discussed at the meeting and create a plan for moving forward. Suggestions from meeting attendees will be incorporated into a written review of the meeting.

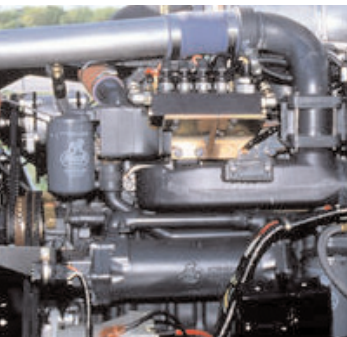

Registration

Register online at www.ott.doe.gov/ngvtf/reg_form.html. The registration deadline is January 13, 2003. If you are unable to register online, please contact David Glickson at the National Renewable Energy Laboratory, 1-303-275-4097, david_glickson@nrel.gov.

Hotel Information

For reservations, call Sheraton at 1-800-345-5251. We have blocked a limited number of rooms for meeting attendees at a special rate of \$89.00 per night. To get the special rate, be sure to ask for the group rate for the Natural Gas Vehicle Technology Forum. The deadline to make reservations at the group rate is Monday, January 13. After that date, availability and rate cannot be guaranteed.

Sheraton Grand Hotel - DFW Airport
4440 West John Carpenter Freeway
Irving, Texas 75063
(972) 929-8400
www.sheratongranddfw.com

Transportation

The hotel provides complimentary transportation from DFW Airport to the hotel for all registered guests. To get the shuttle, simply call the hotel from one of the courtesy phones located near baggage claim, then wait for the shuttle outside the baggage claim area in the section marked "Courtesy Vans." Return transportation from the hotel to the airport is also complimentary and can be arranged with the front desk prior to your departure.

For More Information

For more information on meeting logistics, contact David Glickson at the National Renewable Energy Laboratory, 1-303-275-4097, david_glickson@nrel.gov. For other information about the meeting or the NGVTF, contact Jarett Zuboy, 1-303-275-4603, jarett_zuboy@nrel.gov.

About the NGVTF

DOE recognizes that continuing interactions with industry and government stakeholders are critical to ongoing development of natural gas vehicle and infrastructure technology. As a key part of this effort, DOE has established the NGVTF, the purpose of which is to communicate and share information among stakeholders with the common interest of advancing NGV technology to:

- Maximize the impact of NGVs on reducing foreign oil imports and reducing criteria pollutants and toxics
- Use limited resources efficiently and effectively
- Encourage and support the development and deployment of enhanced NGV technologies for
 - Engines
 - Vehicle platforms
 - Fueling infrastructure
 - Overcoming technical barriers and obstacles

Technical Committees will play a key role in the NGVTF. They will provide technical briefings on new technology developments. They will also provide opportunities for interactive communication similar to that provided by the Infrastructure and Vehicle Working Groups and the NGNGV Working Group supported by DOE in cooperation with GTI in the past. For more information, visit the NGVTF Web Site at <http://www.ott.doe.gov/ngvtf>.
